

Proportional pressure reducing valve

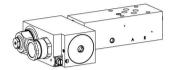

Proportional pressure reducing valve

Flange- or Sandwich construction

- pilot or direct operated
- ◆ Q_{max} = 60 l/min

DESCRIPTION

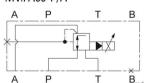

Proportional pressure reducing valve in flange or sandwich construction. By means of changing the electrical current on the proportional solenoid, the pressure in the controlled port changes proportionally to the solenoid current. Pressure increase in the controlled port to above the adjusted value, e.g. through an active consumer, is avoided by discharging excess oil to the tank. For the control, Wandfluh proportional amplifiers are available (see register 1.13).

APPLICATION

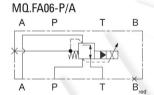

These valves are used in hydraulic systems, where the pressure in a consumer has to be maintained constant independent of pressure fluctuations on the supply side. The electrical remote control in conjunction with process controls allows economical solutions with repeatable processes.

GENERAL SPECIFICATIONS

Designation	Proportional pressure reducing valve
Construction	Pilot or direct operated
Mounting	Flange- or Sandwich construction
Nominal size	NG6 according to ISO 4401-03
Actuation	Proportional solenoid
Ambient temperature	-25+70 °C
Weight	Without screw-in cartridge 1,64 kg (Flange construction) 1,41 kg (Sandwich construction P) 1,78 kg (Sandwich construction A, B)
MTTFd	150 years

ACTUATION

Actuation	Proportional solenoid, wet pin push type, pressure tight
Note!	Other specifications, see data sheet of the screw-in cartridges

PERFORMANCE SPECIFICATIONS

Note!

Detailed performance specifications as well as further hydraulic specifications can be found on the data sheet of the pressure reducing cartridge installed.

Attention!

The performance data especially the "pressure-flowcharacteristic,, on the data sheets of the screw-in catridges refere to the screw-in cartridges only. The additional pressure drop of the flange body respectivly sandwich body must be taken into consideration.

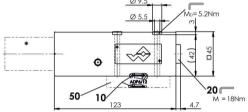

VALVES INSTALLED

The following screw-in cartridges are used in either the flange body or the sandwich body.
